How to Navigate Life at a Glance on the Start Menu in Windows 10
To modify the text "Life at a glance," simply click on it. To remove it completely, click on the x. The same can be done with the text, "Play and explore."
To remove one of the Life at a Glance icons, right click on the icon and click, Unpin from Start.
To resize an icon, right click the icon and select Resize, then select from the choices in the menu. Not all icons have the capability of being resized.
To rearrange icons, click on the icon and drag to where you want it to be moved.
You can customize the Life at a glance column by adding any program, app, folder, or network drive. Right click on the item you want to add, and select Pin to Start.
