

# **Fall 2014 Campus Sustainability**

## **Fund Proposal:**

### **Organizational and Advertising Supplies for the Campus Sustainability Office**

**Total Amount of Money Requested: \$306.94**

Project Leader: Sierra Doucette

## **Project Summary:**

### **a. Goals:**

To increase awareness and improve management of the campus sustainability office and its goals.

### **b. Project Justification and Relevance:**

Purchasing a tabletop panel display will allow the Sustainability Office to create multiple posters without disposing of poster board. This display can be used for various presentations, and can increase awareness among current and prospective students of what the sustainability office does.

Several students have requested that more CO2 light switch stickers be purchased. We were originally given 50 stickers for free from the hu2 design company, but those stickers were gone quickly, and there is a demand for more. The stickers are only one dollar each, they're 100% recyclable and PVC-free, and they come in 100% biodegradable packaging. They serve as a simple but effective reminder to save energy, and they can be easily removed without causing any damage to the wall.

Purchasing a website domain for the sustainability office will replace the website domain "http://psc-sustainability.weebly.com" with "http://psc-sustainability.com," giving the sustainability office a more professional online presence. This cost outlined in the budget table for this service is the price for the new domain for one year; ownership desired after that period will require additional funding.

### **c. Methods:**

All of these purchases can be made online with a credit card, debit card, or PayPal account.

## **Project Budget and Timeline:**

<b>Item</b>	<b>Cost</b>
CO2 Factory Reminder Stickers	50 @ 1.00 ea. - \$50.00
CO2 Factory Reminder Stickers Shipping	\$7.00
Quarter 4-Panel Fabric Panel Display, 18"H x 30"W, Gray	\$209.99

CO2 Factory Reminder for only 1 euro! Help us save the planet one room at a time with this original wall art decal created by Antoine Tesquier Tedeschi, founder of Hu2 Design, for our award winning "Eco Reminder" series.

#### All our stickers are:

- Hand-picked and finished in our own studio
- Made from an adhesive film, free of chlorine and plasticizers, which is environmentally friendly and 100% recyclable
- Finished using application tape that is 100% biodegradable
- Presented to you in packaging that is 100% biodegradable – even the clear "plastic" bag
- Applicable to any smooth surface including walls, windows & furniture – both indoors and outdoors
- 100% water resistant; easily installed and easy to remove with no residue left afterwards
