

Bobcat Alert Enrollment Form

Paul Smith's College Bobcat Alert is a system to allow Paul Smith's College to disseminate information to the larger community regarding impending emergencies or provide timely warnings to either protect lives, or minimize campus disruption. In addition to timely warnings, Paul Smith's College may issue "Emergency Notifications." An "Emergency Notification" is issued when it is determined that there is a significant emergency or dangerous situation involving an immediate threat to the health or safety of the campus community. These significant emergencies include all hazards such as natural disasters, environmental emergencies, weather emergencies, terrorist attacks, fires, and other similar situations. Emergency notifications will be issued without delay and may be issued to only those individuals immediately affected by the situation or to the entire campus community. The notification will utilize the same communication process as that used to issue timely warnings.

The College may also choose to utilize the emergency notification system (BOBCAT -Alert) to keep the campus community informed of unusual events or situations that are occurring on campus that are not emergencies (i.e. Snow closings, delays etc..).

Personal Information (please print clearly)

Full Name: _____
Last *First* *M.I.*

Office Phone: _____

Choose Delivery Method of Bobcat Alert (can sign up for more than 1):

College Email: _____

Personal Email: _____
